

Prime Diagnostic Imaging provides world-class diagnostic imaging services in the Dallas-Fort Worth area. In our quest to become the leading national provider of diagnostic and screening services, we have created strategic partnerships by joint venturing with referring physicians in every local community. Prime is a fast-growing and fast-paced organization that specializes in delivery of MRI, CT, Ultrasound and X-Ray imaging. It is our daily goal to provide top quality images for patients and referring doctors to ensure quick and accurate diagnosis. Prime currently has six locations throughout the Dallas-Fort Worth metroplex. We have experienced continuous and fast growth over the past 10+ years in large part due to the excellent employees who make up our internal team.

Position: Patient Care Coordinator

Job Type: Full-time, Closing shift 11am-7:30pm

Description:

Each day Prime receives 300-500 referrals from physicians. Patient Care Coordinators work to see these referrals from start to finish, starting with heavy inbound and outbound phone call interaction in a centralized-scheduling environment.

Prior medical experience is preferable. We are proud to offer growth and development plans for employees who excel in this area. Prime offers competitive salary and benefits package that includes Health, Dental, Vision, Life Insurance, PTO and 401K options.
